History. This publication has been reorganized to make it compatible with the Army electronic publishing database. No content has been changed.

Summary. This instruction implements AFPD 10-4, *Operations Planning*, and the 25 November 1986 Memorandum of Agreement between the Departments of the Army, Navy, and Air Force; and the Defense Intelligence Agency (DIA). It describes the responsibilities of personnel who manage, prepare, publish, distribute, and use JTTCG/ME publications. It directs functional management for the publication of Joint Munitions Effectiveness Manuals (JMEM) and JTTCG/ME Special Reports produced by the Joint

Technical Coordinating Group for Munitions Effectiveness.

Applicability. Not Applicable

Proponent and exception authority. Not Applicable.

Army management control process. Not Applicable

Supplementation. Not Applicable.

Suggested Improvements. Not Applicable.

Distribution.

Air Force: Distribution F

Army: Distribution of this publication is made in accordance with the requirements on DA Form 12-09-E, block number 3260, intended for command level E for Active Army, the Army National Guard, and the U.S. Army Reserve.

Marine Corps: MARCORPS PCN 10208730000

Navy: SNDL C25A, OPNAV Support Activity Detachment (Ft. Ritchie, only); FKAI, Systems Commands (NAVAIRSYSCOM and NAVSEASYSKOM only); FKPIH, Ordnance Center Divisions and Stations (NAVORDCEN Indian Head MD and NWADIV Corona CA only); FKP4E, Surface Warfare Center and Divisions); FKR6, Air Warfare Center (less FKR6A and FKR6C) SECNAV/OPNAV Directives Control Office, Washington Navy Yard, Building 200, 901 M Street SE, Washington DC 20374-5074
Order From: Naval Inventory Control Point, COG 'I' Material, 700 Robbins Avenue, Philadelphia PA 19111-5098
Stocked: 20

RESERVED

1. Developing JTTCG/ME Publications.

Department of the Defense (DoD) Components (Army, Navy, Air Force, Marine Corps, and DIA) collaborate to develop and publish JTTCG/ME documents. The Joint Chiefs of Staff (JCS) and DoD Components use these documents to plan and analyze attack missions, develop weapon requirements, and conduct wargaming exercises. The JTTCG/ME operates according to the Joint Logistics Commanders (JLC) decisions and directions JTTCG/ME publishes all materiel according to the JTTCG/ME Publication Information Guide, 61JTTCG/ME 1-3.

2. Responsibilities.

2.1. JTTCG Steering Committee. The Army Materiel Command, Naval Ordnance Center, Air Force Materiel Command, Defense Intelligence Agency, and Marine Corps appoint staff-level representatives to the JTTCG/ME Steering Committee as Principal Service Members. The Steering Committee:

(2.1.1) Directs Working Group studies, tests, meetings, other required activities, and funding.

(2.1.2) Establishes working groups to meet the needs of the tri-service operational commands and other users of nonnuclear munitions data.

(2.1.3) Coordinates technical data among Services, approves data for use in JTTCG/ME publications and establishes priorities.

(2.1.4) Provides technical guidance to subgroups and approves publication of data generated by the subgroups.

(2.1.5) Prepares budgets and distributes funding for publishing all JTTCG/ME publications.

(2.1.6) Develops, reviews, and coordinates the technical content of JTTCG/ME publications, including changes and revisions.

(2.1.7) Establishes procedures for controlling the distribution of publications to agencies including non-DoD activities.

(2.1.8) Maintains security classification guidelines for publications.

2.2. Principal Services Members:

(2.2.1) Respond to requests for publication information.

(2.2.2) Coordinate JTTCG/ME publication matters within their own Services and agencies to ensure they approve technical content and promptly authenticate JMEMs.

(2.2.3) Develop initial distribution lists for new JMEMs and an updated list for each JMEM change or revision.

2.3. Air Force:

(2.3.1) Provides the JTTCG/ME Publications Management Office at Tinker AFB, OK. This office manages the publication, distribution, and sanitation of JTTCG/ME documents.

(2.3.1.1) Sanitization is the process of removing data from the JTTCG/ME products and publications prior to release to customers or countries. The Publications Management Office will screen products and publications to blank out, remove, or omit all data not authorized or not needed by a particular customer.

(2.3.1.2) HQ AFMC/DRW controls distribution of JTTCG/ME products and publications within DoD. Forward requests by DoD organizations or associated contractors for JTTCG/ME publications to JTTCG/ME PUBLICATIONS, OC-ALC/TILUB, 7851 2nd Street, Suite 206, Tinker AFB, OK 73145-9160.

(2.3.1.3) Since many JTTCG/ME publications are classified or not releasable to specific agencies, DoD organizations or associated contractors must accompany their requests for these publications by verified security clearance and facility storage authorization. Contractors also must obtain approval from their contract monitor. For foreign government requests refer to paragraph 2.5.

(2.3.1.4) DoD program offices, laboratories, field activities, and associated contractors should submit requests for JTTCG/ME publications in writing to the above address according to paragraph 2.3.1.3. Additional distribution instructions are in Part I of the Joint Service Index of Specialized Technical Handbooks, 61JTTCG/ME 1-2.

(2.3.2) Manages JTTCG/ME numbered documents program.

(2.3.3) Serves as the government contracting agency for the JTTCG/ME General Support Contractor.

(2.3.4) Chairs the JTTCG/ME Publications Coordination Group (PCG).

(2.3.4.1) Provides progress report to the Steering Committee at each meeting on the status of accomplishments, sanitation efforts, and workload backlog. Additionally, briefs any concerns impacting the quality or timely distribution of JMEM publications and special reports with recommendations for resolution. The Air Force will brief the current status of allocated funding.

2.4. DoD components:

(2.4.1) Each DoD component determines how it identifies, numbers, and internally manages copies.

(2.4.2) Participating DoD components designate offices (listed in attachment 1) to receive correspondence, authenticate JMEMs, recommend changes, and conduct other matters that relate to JTTCG/ME publications.

2.5. Foreign Requests. Refer requests for JTTCG/ME publications from a foreign government through appropriate channels to the JTTCG/ME publication Manager, OC-ALC/TILUB, 7851 2nd Street, Suite 206, Tinker SFB OK 73145-9160. A courtesy copy should be sent to the U.S. Army Materiel Systems Analysis Activity, JTTCG/ME Coordinator's Office, AMXSU-1, Aberdeen Proving Ground MD 210005-5071. NOTE: Appropriate channels are listed in the Joint Service Index of Specialized Technical Handbooks, 61 JTTCG/ME 1-2.
