

FORMS GUIDANCE REVIEW OF ARMY-WIDE PUBLICATIONS (PROPONENT)

The purpose of this handout is to familiarize the proponent with the Forms process which is an important part of your request for publishing. At any point during the process, anyone in the Forms Management Branch is available to assist you. The Army Publishing Directorate (APD) Form Analysts can be contacted through the USARMY Pentagon HQDA APD Mailbox for the Forms Management Branch at usarmy.pentagon.hqda-apd.mbx.forms-management-branch@mail.mil for your convenience.

Forms Analysis of Your Publication

Prior to submitting a fully staffed DA Form 260 (Request for Publishing – DA Administrative Publications) to APD, a thorough review of the manuscript should be performed to identify forms related issues or implications.

Review the manuscript to identify all forms cited in your publication. If your publication supersedes any other publications, then identify and validate all prescribed forms in the superseded publication. Compose two separate lists of all the identified forms. (Any of the form analysts will provide a complete listing of the prescribed forms upon request.)

- The first list will only include referenced forms. A referenced form is a form that is controlled and the use of which is directed by another publication and is merely cited in your publication. Check all the referenced forms on your list to ensure that they are current and available for Army users.
- The second list will only include prescribed forms. A prescribed form is a form that is controlled and the use of which is directed by your publication. Since your publication is the “prescribing directive” for the forms identified on the second list, they require more attention.

Forms Management Actions (DD Form 67)

If the publication does not prescribe any forms and you do not have a requirement to develop a new form, then no other forms actions are required for this segment.

Review each prescribed form to determine if it is still needed. If not, please include a DD Form 67 (Form Processing Action Request) requesting the cancellation of the form. For cancellation requests, the DD Form 67 does not need to be fully staffed, only signed by the Action Officer (AO) and Command’s Forms Management Officer (FMO).

For each of the prescribed forms which are still required, this is an opportune time to review them to determine whether any changes are needed. If any of the forms require a revision or you have a requirement to develop a new form, please include a fully staffed DD Form 67 for each revised/new form request, along with clear guidance on what changes are being requested, a list of the data elements to be captured, and/or a draft of the form.

For instructions on how to complete a DD Form 67, please review DA Pam 25-40. A sample of a completed DD Form 67 is illustrated at the end of this packet for your reference.

The DD Form 67 must be signed by the responsible AO for the form in block 17c. Your organization's FMO must sign in block 19c.

- Forms that are subject to the Privacy Act are those that are used to collect personal data from an individual, such as name, address, telephone number, etc. Your local Privacy Act Officer should advise you if your form requires a Privacy Act statement. If a Privacy Act statement is required, it must be included with your forms request.
- Public reporting forms require RCS (Reports Control Symbol) or OMB (Office of Management and Budget) numbers. An RCS number is required if the information is collected from 10 or more people within the federal government. An OMB number is required if the information is collected from 10 or more people outside the federal government.

After consulting with your local Privacy Act Officer the DD Form 67 must be forwarded to the appropriate DA level officials for coordination (staffing) in block 16. Your organization's FMO will assist you with this step. We will no longer accept DD Forms 67 without the correct coordination. The DA level officials for the staffed block 16 are listed below:

- **Privacy Act** – Ms. Renee Anderson, HQDA/OAA/AHS, Casey Building, Room 144, 7701 Telegraph Road, Alexandria, VA 22315-3905, 703-428-6832; renee.anderson3.civ@mail.mil
- **Postal** – Ms. Sandra Stroud, HQDA/OAA/AHS/RMDA, Casey Building, Room 102, 7701 Telegraph Road, Alexandria, VA 22315-3860, 703-428-6440; sandra.d.stroud.civ@mail.mil
- **Reports (RCS and OMB)** – Ms. Sandra Stroud, HQDA/OAA/AHS/RMDA, Casey Building, Room 102, 7701 Telegraph Road, Alexandria, VA 22315-3860, 703-428-6440; sandra.d.stroud.civ@mail.mil

If you have questions or need further guidance in completing the DD Form 67, please contact any APD Forms Analyst.

Social Security Number Reduction Plan - If any of the new/revised form(s) collects Social Security Numbers (SSN), this would be the time to consider removing the SSN field. If the collection of an SSN is deemed absolutely necessary, and is justifiable by one of the 12 use cases specified in the Department of Defense Instruction (DODI) Number 1000.30, Reduction of Social Security Number (SSN) Use Within DoD, as of 01 August 2012, then a justification letter requesting the (continued) use of SSN must also be submitted with your fully staffed DD Form 67. A separate justification letter is required for each form collecting an SSN.

The justification letter must be signed by a General Officer or SES equivalent. It must cite the appropriate [System of Records Notice \(SORN\)](#) authorizing the collection of SSN and must also cite the appropriate "use case" and explain how the use of the form is justified by that use case. The fact that a use case may loosely meet one or more of the justifications does not necessarily mean that a specific justification is acceptable. The DODI 1000.30 provides guidance along with a sample justification letter.

For more information about creating or revising DD forms, SF, OF or federal forms, please contact any APD Forms Analyst for guidance and assistance.

Forms Design

One of our forms designers at APD will design the form in the approved software according to the Army standards. A design professional will collaborate with you to recommend and implement some of the advanced features. Our designers have the capabilities to incorporate digital signatures, computations, logic enhancements and validation. After the form has been designed we will forward the file to you for review and approval.

Forms Issues Affecting Your Publication

When citing a form in a publication for the first time, it must be identified by the form nomenclature and title. Subsequently, the form can be identified by just the form nomenclature only. Additionally, only departmental forms (i.e. DA, DD, OF, SF, etc.) are allowed to be cited in an Army-wide Publication.

If a form must be illustrated in the publication as a sample IAW AR 25-30 and DA Pam 25-40, it must be filled out completely using the most updated version of the form. Illustrated sample forms must:

1. Be of official Departmental forms only.
2. Be of the most recent edition and version of the form.
3. Not contain blank fields; all fields must be populated with sample data.
4. Not include sample data that contain any PII.
5. Be stamped with the word "SAMPLE" across the form.
6. Be labeled with the official form number.

If the prescribing publication is electronic media only (EMO), all forms must be EMO unless they require special construction such as an ID card, or a waiver is granted from the OAASA to print in paper.

All forms cited in a DA level publication must be easily accessible Army wide. Local/Command forms can neither be referenced in, nor prescribed by DA level publications. If there is a requirement to cite a local/command form it should be elevated to a DA level form and be prescribed by the publication.

Block by block instructions on how to fill out a form should be provided only if necessary. We strongly recommend the instructions for completing the form be included in the prescribing publication and not on the form itself.

Appendix A (References) – All prescribed and referenced forms will be listed in Appendix A. Prescribed Forms are listed in Section III. Referenced Forms are listed in Section IV. Add the following statement to the beginning of each section, depending on the actual form cited:

“Unless otherwise indicated, DA forms are available on the Army Publishing Directorate (APD) Web site: armypubs.army.mil and DD forms are available on the Office of the Secretary of Defense Web site: <http://www.dtic.mil/whs/directives/forms/index.htm>. OFs and SFs are available on the U.S. General Services Administration (GSA) Web site: <http://www.gsa.gov/portal/forms/type/SF>.”

If a form is not available electronically and is not distributed by APD’s Media Distribution Division at St. Louis, then specify exactly how Army users can obtain the form.

Lastly, if you have questions, concerns, or need further guidance with Forms process, please contact any APD Forms Analyst through the Forms Management mailbox at usarmy.pentagon.hqda-apd.mbx.forms-management-branch@mail.mil.
