

The Printing Management Division has been required to change the way it accepts and processes DD Form 448 (Military Interdepartmental Purchase Request (MIPR)) and Work Breakdown Structures (WBS), by HQDA Resource Services – Washington, which provides financial support to the Printing Management Division. All Army organizations who use GFEBs must use WBS in place of the MIPR.

Effective immediately, Printing Management Division cannot process any new or pending Army MIPRs unless that Army organization does not have GFEBs. For customers submitting a DD Form 448 (MIPR) or WBS, the funding document cannot be dated or signed before the corresponding DD Form 1144 (Support Agreement) is complete. Printing Management Division will assist in the creation of the DD Form 1144 and/or WBS.

This new process will not affect any MIPRs that have already been accepted in FY19. The MIPRs that have been accepted in FY19, can still be amended for the remainder of FY19.
