b. Records contained in the retirement points correction system, RPAS and RLAS are designated "FOR OFFICIAL USE ONLY" and will be protected to prevent unauthorized access or disclosure.

1-6. Eligibility

a. Retirement point credit is authorized for—

(1) Reserve Component (RC) in active Service Ready Reserve (RR).

(2) RC in an active status as defined in 10 USC 10141. This includes Servicemembers in a Delayed Entry Program (DEP) established by 10 USC 513. This service is credited toward non-regular retirement since it is service in an active status as a member of the RR.

(3) Reserve Officer Training Corps (ROTC)/Simultaneous Membership Program (SMP), DEP Soldiers, RR Soldiers in an active status and active Standby Reserve Soldiers.

(4) Voluntary and involuntary IDT.

(5) Members of the RC in a retired status, other than members who have retired from active service, or members transferred to the Retired Reserve under the conditions described in Title 10 USC section 12734 (10 USC 12734), who are ordered to perform active duty in accordance with 10 USC 12741.

b. Retirement point credit is not authorized for—

(1) Members of the RC in an inactive status under 10 USC 10152 pursuant to 10 USC 12734(a).

(2) Members who have completed the service requirement for retired pay and are not 60 years old who are transferred to an inactive status (Retired Reserve).

1–7. Service requirement for a satisfactory year of service for non-regular retirement

A qualifying year of service for non-regular retired pay is a full year during which a RC member is credited with a minimum of 50 retirement points. Except as otherwise provided by law, an accumulation of 20 such years is one requirement necessary to qualify for non-regular retired pay.

1–8. Establishment of anniversary year

The criteria for establishing the service requirement for a satisfactory year of service for non-regular retirement per DODI 1215.07 and changing the anniversary year ending date are as follows:

a. The full-year periods used for the crediting of qualifying years for non-regular retirement must be based on the anniversary years. Anniversary year periods are calculated from an anniversary date. The anniversary date is the date the Servicemember entered into active service or active status in a RC. Exceptions to calculating anniversary years are—

(1) An officer with service as a cadet at a Service academy per 10 USC 403, or in a Senior ROTC Program in accordance with 10 USC 2104 and 10 USC 2107, will have, as an anniversary date, the date the Soldier entered into active service or active status minus any service as a cadet.

(2) An enlisted member of a military Service who served as a cadet at a Service academy in accordance with 10 USC 403, but who did not receive or who does not hold a commission as an officer, will have the service as a cadet at a Service academy included and counted as active duty.

b. The month and day for each successive anniversary year will not be adjusted unless the Servicemember has a break in service. A break in service occurs only when a member transfers to an inactive status list, the inactive National Guard, a temporary disability retired list, the Retired Reserve, or is discharged for longer than 24 hours. There will not be a break in service if the Servicemember transfers directly to another active component or RC. When a Servicemember with a break in service returns to an active Reserve status or to active service, the revised anniversary year start date will be the date of return or reentry.

c. When the anniversary date shown on any authorized DA Form 5016 is incorrect the Soldier's unit of assignment should submit a request for action to HRC via encrypted email for processing. The email address is located on the HRC website at <https://www.hrc.army.mil/tagd/establishing%20the%20retirement%20year%20ending%20date>.

1–9. Strength accounting

Regional Level Application Software (RLAS) provides the USAR with a web-enabled application for management of personnel and resources. It will report organization, authorization, and personnel data through the following functions to commanders:

a. The organization management function, which provides support in maintaining and updating unit identification and related force structure data to support the personnel distribution processes.

b. The personnel management function provides, which support for managing and controlling officer and enlisted assignments, reassignments, and transfers; and for identifying personnel requirements by grade and skill.

c. The position management function, which provides support for managing and controlling the authorized positions within each unit.

d. The unit manning report, which provides support with a management tool for reviewing and maintaining personnel authorization data, and for monitoring and controlling the assignment of unit personnel to authorized positions by position number, paragraph number, and line number.

e. The mobilization support function, which provides organization and personnel data on a recurring basis to automated systems which directly support mobilization.

f. The personnel actions function, which provides information to manage and control personnel actions. The personnel suspense roster identifies personnel eligible to reenlist and data related to the incentive status of individual Soldiers.

g. RLAS generates Total Army Personnel Data Base-Reserve (TAPDB–R). TAPDB–R sends data weekly to the Defense Manpower Data Center. It provides the official assigned strengths used by the Federal Government (planning, programming and budgeting). The guidelines below must be followed to update the TAPDB–R:

(1) Units—

(a) Gaining unit will submit a DA Form 4651 (Request for Reserve Component Assignment or Attachment) to the unit of assignment.

(b) Unit of assignment, upon approval of the DA Form 4651 request, will forward through chain of command for publishing assignment or attachment order.

(c) Submit DA Form 4651 requests for discharge orders 30 days prior to the Soldier's expiration term of service when it is apparent the Soldier will not reenlist.

(d) Immediately forward all request for orders when it is evident the Soldier will be a loss.

(e) Initiate follow-up action immediately after submitting required documentation to input a gain, loss, or personal data, if the second unit does not update the history report to reflect that change.

(2) Area commanders—

(a) Approve and return orders to units within 10 working days after receipt of request for orders.

(b) Process personnel changes, gains, and losses.

(c) Make inquiries, as needed, to units to determine the status of request for orders.

(3) HRC—

(a) Process Soldier requests as quickly as possible.

(b) Produce orders and return to requesting unit within 30 working days after receipt for assignment if the Soldier is in the Individual Ready Reserve (IRR) strength.

(c) Provide TAPDB-R data processing support.

Chapter 2 Crediting and Awarding of Retirement Points

2-1. Criteria for crediting retirement points

The limitations on the number of points that may be credited to a Soldier during an anniversary year are—

a. Maximum—365 (366 during leap year) points.

b. No more than one retirement point may be awarded for any day in which the Soldier is on active duty. A Soldier in active service may not receive retirement points for other activities performed concurrently.

c. Retirement points credited for activities other than active service or funeral honors duty may not exceed—

(1) For any anniversary years closing before 23 September 1996: 60 retirement points.

(2) For anniversary years closing on or after 23 September 1996 but before 30 October 2000: 75 retirement points.

(3) For anniversary years closing on or after 30 October 2000 but before 30 October 2007: 90 retirement points.

(4) For anniversary years closing on or after 30 October 2007: 130 retirement points.

d. A maximum of two retirement points may be awarded in 1 calendar day for any activity or combination of activities.

e. Inactive duty training (IDT) will be either 4 hours in length for one retirement point or 8 hours in length for two retirement points, with the exception of the 2-hour IDT funeral honors duty.

f. Funeral honors is authorized one retirement point per day in which funeral honors duty is performed for at least 2 hours.

g. Partial year—If a Soldier is separated or removed from an active status during a retirement year, the Soldier may be credited with a proportionate maximum number of IDT points for that year per DODI 1215.07. Table 2-1 shows the minimum number of points required for a partial year for qualifying service. Table 2-2 shows the number of membership points authorized for a partial year.

h. Membership—Soldiers are awarded 15 membership points for each year in an active status. If the Soldier is on active duty for more than 350 days (351 in leap year), membership points will be reduced so that maximum 365 (366) points are not exceeded.

2-2. Criteria for earning retirement points

Retirement points may be earned by USAR Soldiers for active duty or duty in an active status for active duty for training (ADT), initial active duty for training (IADT), involuntary active duty for training (involuntary ADT), voluntary IDT,

annual training (AT), IDT, membership points, and for other activities specified in this regulation. The following types of IDT are in accordance with AR 140–1:

- a. Regularly scheduled unit training assembly include battle assemblies (BA) formally known as unit training assemblies.
- b. Re-scheduled training (RST).
- c. Make-up assemblies for missed BA due to AT.
- d. Equivalent training (ET) in lieu of scheduled BA or RST.
- e. Additional training assemblies (ATA).
- f. Two-hour funeral honor IDT.
- g. Training of individual Soldiers in nonpay status.

2–3. Qualification and eligibility for earning retirement points

a. Authority and specific individual qualifications required for earning retirement points are in DODI 1215.07, DODI 1215.21, AR 140–1, and other regulations governing the type of Reserve duty training to be performed. All active duty and IDT must be preapproved by the unit of assignment/attachment prior to the duty performance. Soldiers attending training or distance learning/distributed learning training in a DOD Civilian capacity are not entitled to retirement point credit per DODD 5500.07. (See AR 140–1 for organizations responsible for organizing, maintaining, and awarding retirement points for USAR assignment status and administrative jurisdiction.)

b. All USAR Soldiers are classified into alphabetic training/pay categories (T/PC) for determination of individual requirements for paid IDT and AT (see AR 140–1). These categories determine individual status in the RR (Selected Reserve (SELRES), IRR, and the Standby Reserve (active and inactive)).

2–4. Criteria for awarding retirement points

a. Personnel on active duty, ADT, IADT, involuntary ADT, or AT are awarded one point for each calendar day they serve in one of these categories and may not be awarded additional points for other activities while in such status.

b. Table 2–3 provides criteria for award of retirement points for IDT performed in accordance with DODI 1215.07 and AR 140–1 (unless another reference is cited). Most types of IDT are covered by one of the following rules on required duration of IDT and calendar day limitations on points. A maximum of two retirement points may be credited for attendance at unit BA or IDT in any 1 calendar day.

(1) *Inactive duty services types are—*.

(a) *Readiness management assembly*. Soldiers may not perform more than one readiness management assembly (RMA) per calendar day, or more than 24 RMAs per fiscal year.

(b) *Additional flight training period*. See AR 140–1 for eligibility.

(c) *Additional training assemblies*. Soldiers may not perform more than 12 ATAs per fiscal year.

(d) *Battle assemblies/rescheduled training*. Soldiers may not perform more than 48 BAs per fiscal year. Soldiers must perform RST within 60 days of the missed BA.

(e) *Equivalent training*. Soldiers may not make up more than four ETs per fiscal year.

(f) *Funeral honors duty*. One retirement point will be credited for each day in which funeral honors duty is performed.

(g) *Additional assemblies for nuclear training*. Soldiers are authorized a maximum of one medical and one dental physical health assessment for 4 hour periods per fiscal year unless follow-ups are authorized at the need of the Army due to further medical screening per AR 40–501.

(h) *Additional Airborne battle assemblies*. Minimum of one jump (one IDT period) per quarter to maintain qualification for hazardous duty pay.

(2) *Four-hour rule*. Soldiers earn one point for each scheduled 4 hour period of IDT at BA, RST, ET, or ATA.

(3) *Two-hour rule*. Soldiers earn one point for each IDT period per day for funeral honors duty with a maximum of one point per calendar day.

(4) *Four/eight-hour rule*. Soldiers earn one point for each 4 hour or greater period. Award of a second point in the same day requires additional hours to bring the day's total to a minimum of 8 hours. Maximum of two points in 1 calendar day.

(5) *Eight-hour rule*. Approved electronic-based distributed learning (EBDL) courses will be awarded to members of the SELRES (TPU). Subject to available funding, and as pre-approved, Soldiers may earn one retirement point and be paid for one IDT for every 8 hours of distance learning completed.

c. Points may not be awarded under more than one of the rules in paragraph 2–4b during any single calendar day.

Members of the SELRES who satisfy the requirements of the health professions scholarship/financial assistance program for active service will be credited with 50 retirement points for each year of participation in a course of study toward a commission. The points will be credited to the member at the end of each year after the completion of the course of study. The points are recorded in the year of participation in the course of study. The award of service credit is limited to 4 years of participation in a course of study under the health professions scholarship/financial assistance program under 10 USC 12732(a)(2). The anniversary year will not be adjusted based on any of the addition of any of these added years and will be established upon attaining an active or active Reserve status.

Chapter 3 Records Source Documents

3–1. General

The Army Training Requirements and Resources System (ATRRS) training transcript, DD Form 214 (Certificate of Release or Discharge from Active Duty), DD Form 215 (Correction to DD Form 214, Certificate of Release or Discharge from Active Duty), DD Form 220 (Active Duty Report), master military pay account, DFAS Form 702 (Defense Finance and Accounting Service Military Leave and Earnings Statement), DA Form 1379 (U.S. Army Reserve Components Unit Record of Reserve Training), DA Form 1380 (Army Reserve Record of Individual Performance of Reserve Duty Training), DA Form 5016, and the Reserve retirement repository are used to maintain and record the award and entitlement of retirement points described in paragraphs 3–2 through 3–7. Units of assignment are responsible to ensure source documents are uploaded into iPERMS prior to submission of action to adjust a Soldier’s retirement points. (See AR 600–8–104 for a sample list of appropriate documentation.) This will ensure proper validation of retirement points throughout a Soldier’s career.

3–2. DA Form 1379 (RCS AG 534) and DA Form 1379–SG (U.S. Army Reserve Components Unit Record of Reserve Training)

a. Use. This is either a Standard Installation/Division Personnel System-USAR output roster (utilized prior to automation), an automated unit commander's pay management report or TAPDB–R output roster (utilized by nonpaid individual mobilization augmentation (IMA) detachments) listing Soldiers attached to IMA detachments. It contains personnel data on each Soldier and is used as follows:

- (1) To record IDT paid and nonpaid drill attendance/status for assigned and attached personnel.
- (2) As a source document to verify accuracy of monthly unit payrolls under the defense joint uniform military pay system by authorized inspecting and verifying personnel (as a source document for reporting specific data items which are input to the personnel information systems).
- (3) As a permanent record of retirement points earned.
- (4) As a basic report for reflecting unit performance and constructive attendance.
- (5) As a historical record of unit training.
- (6) For AT attendance.
- (7) By IMA detachments to record authorized training of attached nonunit Soldiers.
- (8) To determine eligibility for benefits if injury or death is incurred while in training.

b. Preparation for nonpaid units.

(1) DA Forms 1379 will be prepared monthly by HRC from updated data and forwarded to IMA detachment unit commanders. The DA Form 1379 report contains—

- (a) *Heading.* Contains unit identification information and column headings for personal data sections.
- (b) *Attached strength section.* Lists all personnel in the unit official strength and basic personal data items.
- (2) The unit will update the DA Form 1379 to include—
 - (a) Any corrections to the heading, and, attached strength, and recap sections.
 - (b) Annotation of losses from the actual attached strength of the unit.
 - (c) An anticipated gains section, listing personnel for whom attachment authority has been requested.
 - (d) Training, attendance, and unit events information.

c. Disposition.

(1) *Troop program unit Soldiers.*

(a) Units will follow the directives of AR 25–400–2 for procedures for filing of active duty and IADT generated documents from the Automated Drill Attendance Reporting Software (ADARS) and the Reserve ADARS, to include the unit commander's pay management report.

(b) After conversion to automation drill reporting, units will no longer receive a copy of the DA Form 1379. Additionally, units will no longer need to submit the DA Form 1379 within 3 days after the last BA of each month. Instead, the unit commanders pay management report will become an end-of-month report which will be filed with the ADARS IDT attendance roster, and Reserve ADARS. All active duty and IDT completed within each calendar month will be posted, filed, and included in the unit commander's pay management report utilizing Army records information management system.

(2) *Nonunit Soldiers (attached to individual mobilization augmentation detachments).* Forward original to Commander, U.S. Army Human Resources Command (AHRC–PDR–TR), 1600 Spearhead Division Avenue, Fort Knox, KY 40122–5402 within 30 days after reporting month.

d. Codes. Codes for recording appropriate or equivalent instruction or duty are described in table 3–1.

e. IMA detachment codes for yearly scheduled IDT are described in table 3–3.

3–3. DA Form 1380

a. The purpose of this form is to record IDT by—

(1) TPU Soldiers performing IDT assemblies when pay is authorized, and the Soldier is not present to sign the IDT attendance roster.

(2) TPU Soldiers attached to another USAR unit for 89 or fewer days. In such cases the unit of attachment will prepare DA Form 1380 and forward to unit of assignment for recording attendance.

(3) Nonunit Soldiers under the jurisdiction of HRC who are attached for retirement points only to USAR TPUs, ARNG units, or to another Service or component for training per AR 140–10. Only attached Soldiers are authorized to perform IDT with the exception of one annual physical health assessment each for medical and dental readiness when authorized by the command prior to the event. *Note:* Nonunit Soldiers attached for retirement point credit to IMA detachments are reported on DA Form 1379 for those units.

(4) Nonunit Soldiers performing other inactive duty training for retirement point credit as outlined in table 2–3.

b. DA Form 1380 will be prepared for a unit Soldier who performs ET or additional training with their unit subsequent to the scheduled BA. TPU units will retain one copy of the DA Form 1380 to post the appropriate entry into ADARS for

the month's report and then place in the appropriate Army records information management system file. Nonpaid DA Forms 1380 will not be entered into ADARS and will be forwarded to HRC for award of retirement points no later than the end of each duty month. DA Form 1380 will be scanned into the Soldier's iPERMS by the unit of assignment per AR 600-8-104.

c. Codes for duty qualification codes and definitions are described in table 3-2.

Table 3-1
Codes for Recording appropriate or equivalent instruction or duty on DA Form 1379 or DA Form 1380

B	Preparation of instruction.
C	Performing duties in an attached status with ARNG or other RC of the Armed Forces.
D	IDT with active duty units.
E	Performance of legal assistance.
F	Command, staff, or administrative duties (includes RMA).
G	Aerial flights by personnel on flying status, to include additional flight training periods.
H	Performance of pastoral duties.
I	Member of a board (specify board type in item 9d, DA Form 1380).
J	Selective Service duties.
K	Conducting medical examinations (additional assembly nuclear training).
L	Review of medical examination reports.
M	Attendance or participation at appropriate professional and/or trade association convention and Armed Forces seminars.
N	Performance of RST.
O	Training projects (specify in item 9d, DA Form 1380).
P	Attendance at BA in an attached status with another USAR unit for 89 days or less.
Q	Performance of ATA.
R	Equivalent training with unit of assignment (must be of same type, quality, and duration of duty for which it is substituted) (see AR 140-1).
S	Any other services or duties not described above (briefly identify the type of duty, for example, "Training Inspection" or "Tng Insp").

Note.

When one of the above codes is used for training for which IDT pay is authorized, USAR published guidance for fiscal year drill limits. DA Form 1380 must be submitted to the individual Soldiers iPERMS per AR 600-8-104 and the IDT performance package per AR 25-400-2.

Table 3-2
Duty qualification codes and definitions

Soldier's status	Code
OFF/WO/ENL: Soldier is qualified in all nine characters of position requirement code (PRC) and has been awarded a primary military occupational specialty ((PMOS)/primary specialty skill identifier), secondary military occupational specialty (SMOS)/additional specialty skill identifier, or additional military occupational specialty (AMOS), and special qualifications identifier (SQI)/additional skill identifier (ASI), or language identification code (LIC) that matches all characters of the duty position. This code is also used to identify overqualified personnel (for example a sergeant first class, 42 assigned to an E-6, 42 duty position).	Q

**Table 3–2
Duty qualification codes and definitions—Continued**

Soldier's status	Code
<p>ENL: Soldier has completed IADT (basic combat training/advanced individual training (AIT)) and has been awarded a PMOS/SMOS/AMOS which is a feeder military occupational specialty code (MOS) for the duty military occupational specialty (DMOS), and Soldier has also been awarded the SQI/ASI, and LIC required for the position. This code is used to identify personnel carried against higher grade positions, but who are otherwise qualified. For example, an E–6 91P3PU8 assigned to an E–7, 91P4PU8 position and an E–6 31B3O assigned to an E–7, 31Z4O position would be reported with this code. A Soldier who is qualified but does not have an award of the required SQI/ASI, or LIC will be reported as code N, L, S, or X as appropriate.</p>	P
<p>OFF/WO/ENL: Soldier is not qualified, and the commander requires assistance in training the Soldier (through an USAR school, Service school, AT, or ADT).</p>	N
<p>OFF/WO/ENL: Soldier is not qualified, but the commander is training and qualifying the Soldier through supervised L on-the-job training, unit school, and/or correspondence courses; no training assistance is required. Use also for reporting E–8 and E–9 Soldiers in command sergeant major duty positions that have not been promoted to command sergeant major.</p>	L
<p>OFF/WO/ENL: Soldier is not qualified, but is scheduled (quota obtained) for, or is currently attending formal S MOS training at a service school, AT, or ADT.</p>	S
<p>OFF/WO/ENL: Soldier is not qualified, but is awaiting IADT, currently on IADT, or awaiting the final phase of AIT A (split training option). This code applies to officers awaiting/attending the initial branch/specialty course.</p>	A
<p>OFF/WO/ENL: Soldier is not qualified and cannot be programmed for any position required in the unit authorization X document. Examples would be a Soldier whose physical profile prohibits them from qualifying for any MOS authorized in the unit. Soldiers reported under this code should be reported to the USARC as excess and appropriate action taken (for example, transfer to another geographical TPU, transfer to IRR or discharge). Do not use this code to report over-strength Soldiers who would otherwise qualify for another code.</p>	X

Legend
ENL = enlisted
OFF = officer
WO = warrant officer

Note.

¹ Officers assigned to a duty position declared "branch immaterial" on the modification table of organization and equipment/table of distribution and allowances will be considered qualified once they have qualified in their basic branch.

² SQI precedence will be maintained in reporting PMOS. For example: A Soldier with a PMOS of 11B4P occupying a vacancy with a DMOS of 11B4H would be considered qualified, provided Soldier was also awarded the SQI "H" (instructor). As an exception to SQI "X" (drill sergeant) will always be assigned to the PMOS for all qualified Soldier assigned to a drill sergeant duty position.

³ DMOS for ROTC/SMP participants will be 09R2O. DMOS for ROTC/SMP potential participants will be 09R1O. DMOS for Officer Candidate School (OCS) candidates while enrolled in either an RA or RC OCS will be 09W00. DMOS for warrant OCS candidates will be 09T00. All of these Soldiers will be considered DMOS qualified and reported with code "Q" while in candidate, participant, or potential participant status.

3–4. Electronic-based distance learning

The National Defense Authorization Act for Fiscal Year 2002 (Public Law 107–107, section 603), authorized compensation to certain members of the Selected Reserve. Pursuant to 37 USC 206(d), a member of the Selected Reserve of the Ready Reserve may be paid compensation at a rate and under terms determined by the Secretary of Defense upon the member’s successful completion of a course of instruction undertaken by the member using electronic-based distributed learning methodologies to accomplish training requirements related to unit readiness or mobilization, as directed for the member by the Secretary concerned. This regulation provides discretionary payments only for members of the Selected Reserve not in active service or on active duty who are directed by their commanders to complete training requirements related to unit readiness or mobilization, by means of electronic-based distributed learning.

a. All electronic-based distributed learning courses approved either for payment with Reserve compensation or for completion by Soldiers for Reserve retirement points only, will be listed in the Army Training Requirements and Resources System. Courses designated as eligible for Reserve compensation under the electronic-based distributed learning policy will be appropriately annotated within the ATRRS.

b. Additional training periods for distributed learning for Reserve compensation are authorized only for Soldiers in the paid drill strength of the ARNG and USAR, including drilling individual mobilization augmentees.

c. Commanders may direct Soldiers to enroll in and complete electronic-based distributed learning courses that are eligible for Reserve compensation. Commanders will provide this direction in writing, citing the availability of funds in advance of a Soldier’s enrollment.

d. When scheduling lengthy electronic-based distributed learning courses of instruction, commanders should avoid crossing fiscal years whenever possible.

e. Commanders will ensure that coursework authorized for additional training periods for distributed learning is not completed during any other type of training or duty periods.

f. Per AR 135–180, the maximum number of inactive duty training periods performed by type (except for equivalent training) and retirement points that may be awarded in one day, do not apply to additional training periods for distributed learning, nor do they prevent the performance of other types of inactive duty training periods on the same date. However, retirement points shall not be credited in excess of the maximum number creditable in an anniversary year for inactive duty training.

g. Initiate payment only when a Soldier satisfactorily completes directed electronic-based distributed learning phases or courses. Commanders must validate the required training was completed and is updated in a formal Army record of training, for example, ATRRS, Learning Management System within 365 days of course completion. Each 4 hours of successfully completed qualifying electronics-based distributed learning coursework will earn a Soldier credit for completion of one additional training period, whether paid or unpaid, and one Reserve retirement point. These are categorized as inactive duty training points and are subject to the annual limit on Reserve retirement points that may be credited in an anniversary year toward retired pay by 10 USC 12733(3).

h. For phases or courses that total fewer than 4 hours, aggregate the time for directed courses in multiples of 4 hours to establish inactive duty periods and determine eligibility for Reserve compensation and Reserve retirement points, or Reserve retirement points only.

i. To qualify for Reserve compensation, the electronic-based distributed learning work must have been directed and completed on or after 2 June 2010.

j. Members of the SELRES who completed electronic-based distributed learning coursework between 28 December 2001 and 2 June 2010 may be awarded Reserve retirement points at the rate of one point per each 4 hours of distributed learning coursework, unless previously awarded retirement points.

k. The ARNG/ARNGUS and the USAR are responsible for presenting the requirements for distributed learning training days for inclusion in the program objective memorandum or the program budget review.

3–5. DA Form 5016

a. *Purpose.* These statements—

- (1) Provide a permanent record of the total retirement points Soldiers earn during an anniversary year.
- (2) Inform Soldiers whether they earned sufficient points for a qualifying year for retirement or retention in an active status.
- (3) Provide Soldiers an opportunity to review their retirement points to request corrections.

b. *Initiation and preparation.*

- (1) Prepared by HRC from the processing of data furnished manually and utilizing automation.
- (2) Prepared for Soldiers under HRC command to include obligated enlisted Soldiers who have earned at least one retirement point.
- (3) Prepared to cover a full anniversary year of ADT or active duty.
- (4) Prepared for all Soldiers regardless of the number of points awarded.
- (5) Issued annually and upon correction to a record.

c. *Missing DA Form 5016.* Soldiers and units are required to review and update the DA Form 5016 annually. Soldiers and units may request missing DA Forms 5016 from the CG, HRC. The request should include a complete organizational designation and geographical location to include each period for which credit is requested, to include the anniversary year end date (for example, 21 Oct 2005 through 20 Oct 2006). Correspondence must be addressed as follows: THRU: CDR (appropriate area command), (appropriate human resources office), TO: Commander, U.S. Army Human Resources Command, 1600 Spearhead Division Avenue, Fort Knox, KY 40122–5402. Soldiers and units may forward incorrect DA Form 5016 via encrypted email with supporting documentation to the HRC appropriate human resources offices located at <https://www.hrc.army.mil/>.

3–6. DD Form 214 (Certificate of Release or Discharge from Active Duty)

This form is issued to all individuals at time of release from the RA to include other Services or from AGR status. It is also issued to USAR Soldiers who complete 90 or more consecutive days of ADT or IADT. Retirement points at the rate of one per day are granted for the period from date of entry through the date of release from active duty. Only items listed in item 12a and 12b on the DD Form 214 listing the current active duty, may be used for award of retirement points.

3–7. DFAS Form 702/master military pay account

When an automation issue occurs between DFAS and RPAS that causes a USAR Soldier not to receive retirement points for IDT or active duty, the Soldier or unit may use DFAS Form 702 or the master military pay account. Units will forward to HRC for input for award of retirement points. Soldiers assigned to the IRR or IMA will forward directly to HRC for processing.

Internal Control Evaluation

B-1. Function

The functions covered by this evaluation include conducting annual record reviews of retirement points, proper utilization of DA Form 1380, and proper awarding of retirement points.

B-2. Purpose

The purpose of this checklist is to assist commanders in evaluating the key internal controls listed below. It is not intended to cover all controls.

B-3. Instructions

Answers must be based on the actual testing of key internal controls (for example, document analysis direct observation, random sampling, and simulation). Answers that indicate deficiencies must be explained and corrective action indicated in supporting documentation. These internal controls must be evaluated at least once every 2 years. Certification that this evaluation has been conducted must be accomplished on DA Form 11-2 (Internal Control Evaluation Certification).

B-4. Test questions

- a.* Are human resource personnel reviewing and correcting retirement points recorded on DA Form 5016 during in-processing, annual audits, mobilization, and demobilization?
- b.* Has HRC provided USARC with a monthly status report listing accepted and rejected retirement update/correction transactions?
- c.* Did USARC conduct quality assurance checks for Soldiers in TPU status?
- d.* Did unit request orders for reassignment as soon as concurrence/acceptance from gaining unit is received?
- e.* Is DA Form 1380 for nonpay completed and submitted for Soldiers performing IDT assemblies at the end of each month when duty was performed?
- f.* Are Soldiers receiving one point for each 4 hour or greater period?
- g.* Are record managers assuring DA Forms 1380 are scanned and submitted to iPERMS.

B-5. Comments

Help to make this a better tool for evaluating internal controls. Submit comments to Deputy Chief of Staff, G-1 (DAPE-MPE-IP), 300 Army Pentagon, Washington, DC 20310-0300.
